## ABOUT THE COLLEGE

Sri Ramakrishna Sarada Ashrama Teacher's Training College, (Rabindra Path), Hazaribagh follows the path of Divine Trio Sri Ramakrishna Paramhans, Sarada Maa and Swami Vivekananda. It is located in bestowed beauty of Woody ambience in Hazaribagh. The college is half a kilometer from Hazaribagh Bus Stand, about 100 kilometers from capital city of Jharkhand (Ranchi), and easily accessible by road & rail.

The founder President of Sri Ramakrishna Sarada Ashrama (Hazaribagh) Swami Tapananda Maharaj, disciple of Swami Himanshu Maharaj, who was direct disciple of Maa Sarada Devi. Swami Tapananda wanted to fulfill the dream of Swami Vivekananda, the greatest reformer and think tank of our nation, for Hazaribagh. Swami Vivekananda foresaw that there would be an educational institution to fulfill the dream of local people from across social sectors. Swami Tapananda fulfilled the dream by establishing Vivekananda Central School in 1992 and subsequently Teacher's Training College in 2009-10, under the same umbrella of Sri Ramakrishna Sarada Ashrama. The dream has been fulfilled as both the centres provide education and employment to people from various sectors of the society. The continuous, dedicated and untiring efforts of Swami Tapananda Ji Maharaj is enlightening the spirit of Hazaribagh.

*"The secret of life is not enjoyment,  
But education through experience"*

The college provides an eco-friendly atmosphere for the students that helps them to achieve their goals easily. The institution has a well-developed, established infrastructure to nurture the young minds towards right directions.

## ABOUT THE SEMINAR

Education is fundamental in achieving full human potential, which helps developing an equitable and just society, leading to promotion of national development. Providing universal access to quality education is the key to India's continued ascent, and leadership on the global stage in terms of economic growth, social justice & equality, scientific advancement, national integration and cultural

preservation. Universal high quality education is the best way for developing and maximizing our country's rich talents and resources for the betterment of the individual, society, country and the world. India will have highest population of young people in the world over the next decade and our ability to provide high quality educational opportunities to them will certainly take of our country to new heights.

*The present Seminar on "National Education Policy 2020 & its Implication on Teacher Education" is aimed at strengthening the above objective.*

The real education according to Swami Vivekananda is that which prepares the individual for struggle for existence. Education prepares a man for social service, to develop his character and finally imbues him with the spirit and courage like that of a lion. Only getting degree is not an education, rather, proper education must be viewed on the basis of character building, enhancement of mental powers inculcating and augmenting intelligence, self-confidence and self-reliance in individuals. Swamiji has also emphasized on all the knowledge which we get from worldly or spiritual virtues embedded in the human mind. In an uneducated mind it is covered with a veil of darkness and ignorance. Education is a tool to enlighten the minds from the darkness of ignorance. After getting true education, the knowledge shines out dazzlingly. Swami Vivekananda condemned and refused the bookish learning and rote memory education. Condemning the theoretical and academic education, he spoke emphatically for practical and experimental education, leading to development of life skills. This is what the NEP 2020 looks at.

NEP-2020, India's visionary education policy for the 21st century, through which the government intends to harness each student's skills, promote universalizing education, building of capacities, and redefining the learning landscape of the education system of the nation. This updated policy is likely to be game changer in Indian educational system, and it will undoubtedly make the country a desirable destination for higher education around the globe. The policy would transform India into a flourishing knowledge hub and is founded on the pillars of "Access, Equity, Quality, Affordability, and

Accountability. NEP-2020 advocates a number of modifications to the higher education system in order to improve quality education. NEP-2020 is concerned with systematic and institutional improvements in the regulation, governance, promotion of interdisciplinary academics and research in higher education institutions. In addition, this policy has created the much-discussed Academic Bank of Credit, which will provide students in higher education with multiple entry and exit alternatives. The strategy aspires to construct a new system that is matched with the 21st century eco-system, taking into account India's acceptance, contributions and achievements towards sustainable development goals (SDGs) set by United Nations for the world, which include providing inclusive and equitable quality education and promoting lifelong learning opportunities to everyone by 2030.

### Chief Patron :
